The following changes to the drawings have been approved by the examiner :

Please delete all references to the international application file on the drawing pages.

The following is an examiner's statement of reasons for allowance: The examiner could not find fair suggestion for the tuneable delay line type oscillator circuit with an amplitude detector sampling the signal output from the oscillating signal element to obtain the maximum output signal. The reference by Jaussi et al shows a delay line oscillator circuit with peak detection, however, the date is after applicants date.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Arnold Kinhead whose telephone number is 571-272-1763. The examiner can normally be reached on Hoteling.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Robert Pascal can be reached on 571-272-1769. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
